

FLORIDA REMEDiation CONFERENCE

15th Annual

Tools, Techniques and Practices

October 15-16, 2009

Radisson Worldgate Resort, Orlando

Call for Papers

*FRC is the Southeast's Premier Soil and Groundwater
Cleanup Conference of the Year*

The soil and groundwater cleanup industry in Florida continues to face numerous challenges—technical, regulatory, legislative, financial and marketplace—but has remained solid through the middle years of the 2000s. As the business continues to evolve, more emphasis has been placed on cost-effective tools and treatments, on-site performance and bottom-line results.

This fall, the Annual Florida Remediation Conference, now in its 15th year, will again focus on the issues of soil and groundwater contamination cleanup in Florida's unique physical and regulatory environment.

Engineers, scientists, hydrogeologists, project managers, regulators, compliance managers, consultants, attorneys, equipment vendors and others will benefit from the opportunity to exchange information, discuss case studies and analyze field operations in what has become the Southeast's top annual remediation meeting.

All participants will have a chance to learn about emerging treatment technologies and support services available for effective cleanup projects, and how they're being put to the task in the field.

We are now identifying sessions topics for presentation and are asking for abstracts on risk assessment/RBCA, brownfields, bioremediation, natural attenuation, emerging technologies, mixed waste challenges, site assessment technologies and methods, site stabilization, combined strategies, vapor intrusion, regulatory policy and initiatives and cleanup of sites contaminated with petroleum, PCBs, solvents, arsenic and heavy metals, pesticides and other contaminants.

We are looking for papers on proven technologies with real-world applicability to Florida and appreciate data-heavy presentations and a "roll up the sleeves" approach to your presentation.

Submission Instructions

We have started reviewing subject matter to be included on the 2009 FRC agenda. If you are interested in being a part of this growing conference, submit an abstract of approximately 250 words **by May 31, 2009**. FRC presentations are strictly limited to 25 minutes in length. Mail, fax or e-mail abstracts to:

Florida Remediation Conference

P.O. Box 2175

Goldenrod, FL 32733

Fax: (407) 671-7757

Conference Producer

The Florida Remediation Conference is produced and sponsored by National Technical Communications Co., Inc., publishers of the *Florida Specifier*, and producer of the Enviro-Net Web site, providing on-line news and archival access to print publication articles.

The *Florida Specifier*, NTCC's state-based, industry-leading trade newspaper for over three decades, regularly covers the soil and groundwater remediation industry in Florida and the Southeast with news and information about state and federal regulatory changes, effective technology-based solutions and the players involved in this solid segment of environmental protection and resource management.

Questions?

You can reach us at (407) 671-7777 or 1-800-881-6822, or online at info@enviro-net.com should you have any questions or need additional information about FRC 2009.

Feel free to contact us anytime.
